OUR PAINT INSURANCE

Your Protection

"Harris Insurance Policy"

We Guarantee each and every can or package of Harris Paint, Varnish or Paint Product, bearing the name "Harris," as follows:

If, after applying according to directions (and using pure thinners, if any are used), the result is not entirely workmanlike in every way as regards gloss, finish, durability, color or any other particular whatsoever, return to us the figures on top of packages giving date of purchase, and if the fault is ours, we will cheerfully replace each and every gallon free of charge.

Remember, most paint makers guarantee house paint only. Our Paint Insurance covers every can or package of Varnish or Paint bearing the name "Harris."

HARRIS BROS CO.
A. HARRIS, Pres.

HARRIS READY MIXED PAINTS

Quality The Harris quality is best represented in our Harris Ready Mixed Paint. It is of the highest quality. You cannot possibly do better than to favor us with your order for your requirements in the paint line. Our HARRIS PAINT is made only of the best materials it is possible to procure and is manufactured under the direct supervision of the foremost paint maker in the business today. Every shipment comes from freshly made stock, thus insuring **uniformity of color, greater covering capacity and absolute ease of application.** The careful work and study of our paint experts and the personal supervision of each order, makes our HARRIS PAINTS the most durable, unfading and satisfactory that can be produced. **That is why we guarantee it so freely.**

It is Economy to Paint The cost of painting a house, barn or fence is so little compared to the value of protection against rot and decay, caused by the elements, and to the length of time it prolongs your buildings, that you cannot afford to let your house, barn or fence stand unpainted.

Easy to Paint YOU CAN DO YOUR OWN PAINTING BY USING HARRIS READY MIXED PAINTS. It no longer requires an expert to make up paints for each job. The mixing of paints is done properly at our factory and the paint is ready to apply. All it requires is to be stirred up and possibly thinned a little. This you can easily do and make a first class job.

A Saving of at least 50 cents per gallon. HARRIS READY MIXED

PAINTS are equal and even superior to most of the paint sold at \$1.65 to \$2.00 per gallon. Why take chances in buying your paint from a stock that has been on hand for an indefinite period? Any experienced painter will tell you that paint freshly made up is much superior to a paint that has been mixed for some time. It often occurs that dealers will carry paint over from year to year and you have no assurance of getting your paint of uniform color and consistency. In buying HARRIS READY MIXED PAINTS you are absolutely sure of fresh stock of the highest grade of ready mixed paint on the market.

Do Not Let Anyone convince you that it is necessary to pay a higher price for paint. It is possible for us to furnish you with our line of HARRIS PAINTS at the low prices quoted, owing to the simple fact that our paint trade has developed to the point where we are able to dispose of the entire output of a large factory, and in view of our immense paint sales we are able to make our contracts on the most favorable basis, and are, therefore, in a position to save our customers the large profits that a regular dealer in paints is obliged to make.

Shipments are made from our paint factory and are fresh, properly ground and mixed in exact proportions. This insures the strongest colors, durability and ease of application.

Read What Our Customers Say

Better Than Any Paint He Could Buy For the Salty Atmosphere

West Palm Beach, Fla.

Harris Brothers Co.,

35th and Iron Sts., Chicago, Ill.

Gentlemen:—I wish to write you regarding the wearing qualities of your "Harris" Paint. I have used it here in this salt atmosphere for the past four years and find it better for the climate than any paint I can buy, no matter what the price.

Thanking you for the many courtesies shown, I am

Yours truly,

W. A. Weihe.

Covers More Surface Than Local \$2.50 Quality Paint

R. R. No. 4, Box 6, Nokomis, Ill.

Harris Brothers Co.,

35th and Iron Sts., Chicago, Ill.

Gentlemen:—Please send me your Free Paint Book, also your Clothing and Gasoline Engine Catalog. The paint I received of you some time ago is the best paint that I ever put on a house. It goes further than paint that costs—\$2.50 a gallon in town.

Yours truly,

Ray M. Waples.

Used Harris Paint on 22 Buildings

Monon, Ind.

Harris Brothers Co.,

35th and Iron Sts., Chicago, Ill.

Gentlemen:—It gives me pleasure in notifying you that the 800 gallons of Harris Paint and Shingle Stain I have purchased of you in the few months past have given more than satisfaction. I am pleased to refer anyone to the Thomas Kelley Ranch, at Monon, where I have used your paint on twenty-two large buildings and three bridges, and expect to use as much more the coming season.

Respectfully yours,

F. A. Young,

Contractor and Builder.

Fine Condition After 3 Years

Jackson, Mich.

Harris Brothers Co.,

35th and Iron Sts., Chicago, Ill.

Gentlemen:—Please send me your latest paint catalog. I painted my house three years ago last Spring, with your paint, and it proved to be so good, two of my friends have since bought paint of you for their houses, and now a third party wants me to get your catalog and prices, as his house needs painting. The paint on my house is in fine condition after three years' trial.

Yours truly,

S. L. Hoer,

318 Lincoln St.

Found Our Paint Better Perfectly Satisfied

111 W. 4th St., Pratt, Kans.

Harris Brothers Co.,

35th and Iron Sts., Chicago, Ill.

Gentlemen:—I bought 24 gallons of your Harris Paint a couple of weeks ago and found it all you claimed for it and still better.

J. A. Kaufman,

Kaufman Creamery Co.

Very Much Pleased With Our Paint

R. D. No. 1, Canastota, N. Y.

Harris Brothers Co.,

35th and Iron Sts., Chicago, Ill.

Gentlemen:—Last Fall I sent to you for 31 gallons of barn paint. It was too late to paint, so have just had it done. I lack a few gallons and later I want enough for my tenant house. Can I get the rest at the rate I got my first lot? I am very much pleased with the paint and you will get more orders from parties that have seen my house. Please let me hear from you, and oblige

Yours truly,

Mrs. J. C. Hollister.

After 8 Years Looks Like New

Fall River, Mass.

Harris Brothers Co.,

35th & Iron Sts., Chicago, Ill.

Gentlemen:—Will you please mail me your color sheet of paints for houses. I bought some of you seven or eight years ago and only gave the house one coat and it looks better now than some houses around here done within half the time. I was very well pleased with it. I have lost your color sheet and as I am about to paint again now, please give me the freight weight on five and seven gallons separate as I am not sure which I will order just now and please send at once as I want to place my order immediately.

Yours for business,

R. F. Patterson,

111 Cambridge St., Fall River, Mass.

Subjected to a Variety of Sudden Changes

Cuba City, Wis.

Harris Brothers Co.,

35th and Iron Sts., Chicago, Ill.

Gentlemen:—We have used the Harris Red Paint purchased from you last summer on all our plant buildings, finding same to cover with very durable utility, and in some instances the paint is subjected to steam freezing and a variety of sudden changes from hot to cold blasts, and as we are now building a reduction plant, we will paint the same with your paint. Kindly send me quotations on same should there be any change in price.

Yours truly,

H. L. Hulbert.

First Order Satisfactory—Bought More Paint

R. R. No. 2.

Harris Brothers Co.,

35th and Iron Sts., Chicago, Ill.

Gentlemen:—I drop you a few lines in regard to Paints. I bought 25 gallons of Barn Paint last fall and am well pleased with it. I am thinking of painting my house this Spring and would prefer the color White. I did not see the color card of white. Please state me price on Harris House Paint, Color White, on 25 gallon barrel, and 10 gallons linseed oil.

Hoping to hear from you soon, I am

Yours very truly,

J. Henry Schroeder,

R. R. No. 2.

Better Than Any Have Ever Used

533 N. Maple St., Clinton, Ill.

Harris Brothers Co.,

35th and Iron Sts., Chicago, Ill.

Gentlemen:—Please inform me if you have in stock varnishes, japans, primer floor varnish. I do not see it listed in your catalog. I have bought it before from your house and like it better than any I have ever used. Please let me know as soon as possible.

Yours truly,

Minnie Diggin.

Recommends Harris Paint to His Neighbors

Wayland, N. Y.

Harris Brothers Co.,

35th and Iron Sts., Chicago, Ill.

Gentlemen:—Kindly send me color card of your Ready Mixed House Paint, with price per 5 gallon bucket.

I used 5 gallons of your paint last season on house of T. R. Humphreys and was so well pleased with it. I have recommended it to one of my neighbors who is to paint his house soon.

Yours very truly,

James C. Prussin.

P. S. Have had 30 years' experience in paint.

A Letter That Speaks For Itself

1004 Bloomfield St., Hoboken, N. J.

Harris Brothers Co.,

35th and Iron Sts., Chicago, Ill.

Gentlemen:—In summer of 1909 I ordered from Alexander, N. J., with other paint, 6 gallons of Harris Roof and Barn Paint, 800 Drab. I have one gallon left and would like to match it. I should probably need about 5 gallons to give the barn a second coat. What barn paint in your new catalog, which I have just received, matches the paint I formerly ordered? Both House and Barn Paint have given splendid satisfaction.

Yours truly,

Geo. W. Weimer.

Has Painted 4 Houses—Well Satisfied

Box 78, Hamilton Sq., N. J.

Harris Brothers Co.,

35th and Iron Sts., Chicago, Ill.

Gentlemen:—Will you kindly mail me your paint book, as I want to paint a couple of houses. I have used your paint on four houses and I like it better than any paint I ever used.

Yours respectfully,

Mr. V. N. Cubberly.

Here's Some Real Satisfaction

Box 61, Lyndonville, Vt.

Harris Brothers Co.,

35th and Iron Sts., Chicago, Ill.

Gentlemen:—Will you kindly send me your large Catalog? I am enclosing part postage. Would say paint I had from you which was applied to my house has turned out fine and I have recommended it to my neighbors. I am interested in bathroom fixtures and fencing just now and hope to give you an order.

Yours truly,

D. Y. Ayers.

We Have Hundreds of Voluntary Letters Just Like These

TRUE TALK ON PAINT

OUR ENORMOUS TRADE

OUR PAINT AND VARNISH DEPARTMENT, one of the largest and most important branches of our enormous institution of general, desirable and strictly dependable merchandise has grown steadily through healthy methods and quality, and such ever increasing yearly volume until we concluded to build our own paint and varnish plant, which we now have in full operation, equipped throughout with machinery of the most modern up-to-date type, thoroughly practical and economical.

We are prepared to convince any one that our paints and varnishes are more reliable and expensively made and a number of times more efficient and durable than most brands on the market.

We particularly desire to impress the fact that in the operation and maintenance of our plant we spare no expense, our success we believe is based upon this, so now in presenting the full details of our line of paints and varnishes, we feel that we can fairly offer better paint for less money than any manufacturer we know.

These conditions you can readily understand, enables us to produce PAINTS AND VARNISHES at prices absolutely lower than low prices, and at practically a saving of 30% to 50%, or, in other words, we give you the advantage of saving the enormous profit which we formerly had to pay the manufacturers. If this should not demonstrate to your satisfaction that our paints and varnishes can be sold at such extremely low prices, we ask that you thoroughly acquaint yourself with this wonderful money-saving advantage, and make a careful comparison of our HARRIS PAINTS AND VARNISHES with any other brands on the market. You cannot possibly do better than to favor us with an order for your requirements in the paint line. A trial is all we ask. Bear in mind our "INSURANCE POLICY" is binding; it is your protection. We guarantee each and every can of Paint, Varnish or Paint product bearing the name HARRIS. (Read our insurance policy carefully.) We will replace gallon for gallon without cost to you any of our products that fail to give the utmost satisfaction.

OUR WONDERFUL OFFER

THE DAY IS PAST FOR MISREPRESENTATION. Our PAINTS and VARNISHES are of the highest quality, regardless of any representation made by other dealers. We desire it to be distinctly understood that the paints and varnishes offered are of a make and quality that are strictly reliable and dependable. They are not only something radically different in the paint and varnish line, but something you can rest assured leaves our NEW PAINT PLANT direct to you, thoroughly tested in the process of manufacture under the watchful eye of the efficient superintendent of our Paint and Varnish Plant, who is probably the best known paint authority in the world today.

This remarkably able and competent man gives his entire attention and personal service to the manufacture of our Paints and Varnishes. He is very anxious to render Our Patrons any assistance he can, and with this end in view solicits you to write him upon any matter pertaining to paints and varnishes.

Every particle of raw material required for the manufacture of our products undergo this severe scrutiny so that you will receive a perfected article impossible to duplicate through any source. This, backed by our "Insurance Policy," has made Harris Paint and Varnish the most durable, uniform and satisfactory that can be produced, and also offering the best paints and varnishes that money can buy.

Uniformity of colors, greater covering capacity, absolute ease of application are the special features of Harris Paint and Varnishes.

SCIENTIFIC PROCESS

IT IS NOT OUR INTENTION HEREIN to describe technically or enter generally into the manufacture of our paints. This information is intended only to impart to you a brief idea of the process of careful and scientific manufacture. Our Paint Superintendent's years of experience enabled him to find material to produce results, or in other words, get a thorough knowledge of what they will do and how they will act in combination, regardless of the cost of them. He has turned out millions and millions of gallons all over the country, and has made friends wherever it went.

The paint and varnish ingredients are absolutely worthless unless they are properly combined. Perfected machinery, such as we have in our new plant, has made possible the combining of these materials in large quantities which a few years ago seemed impracticable. This machinery is of the very latest type. It has a special patented mixing feature that when in operation is hermetically sealed, which prevents the slightest loss by evaporation or the formation of paint skins. It would seem that this process would be of short duration. The final work of the mixers takes about 20 hours. You can readily see that the combining of the ingredients of our remarkable formula without this machinery would be impossible, and we are unwilling to continue to build our paint reputation in any other way than to supply results impossible for unscrupulous competitors to duplicate even were they able to obtain our formula.

This brief outline of HARRIS PAINT manufacture covers the main points in our factory for after carefully testing the contents of the mixers it is then ready to draw off into tins or wooden kits for the market.

PRICE AND QUALITY

A SAVING OF AT LEAST 50 CENTS PER GALLON. HARRIS READY MIXED PAINTS are equal and even superior to most of the paints sold at \$1.65 to \$2.00 per gallon. Why take chances in buying your paint from a stock that has been on hand for an indefinite period? Any experienced painter will tell you that paint freshly made up is much superior to a paint that has been mixed for some time. It often occurs that dealers will carry paint over from year to year and you have no assurance of getting your paint of uniform color and consistency. In buying HARRIS READY MIXED PAINTS you are absolutely sure of fresh stock of the highest grade of ready mixed paint on the market. When any one offers to sell you a so-called "Better Paint," regardless of price, first ascertain how long they will guarantee the paint, and if they do not guarantee it as we do ours, you may rest assured that it cannot be equal in quality to the HARRIS READY MIXED PAINTS.

Easy and Right Way to Paint!

ON THIS PAGE WE OUTLINE IN THE MOST SIMPLE MANNER, the easiest and right way to paint, how to care for the brush, etc. Many people are led to believe that to properly apply paint it requires the services of a skilled mechanic. Now, while we do not undertake to make professional painters or experts of any of our customers, we know that if you will follow the instructions we outline in as simple a language and as briefly as possible, you will accomplish a piece of work that will not only be attractive in appearance but will give you splendid service. By this we mean it will retain its brilliancy and luster longer. Don't hesitate to write for any information you may need. We will consider it a favor if you consult us on any question.

Never open a can or package before its contents are thoroughly agitated. Shake the can well, as shown in illustration, use a little energy and you will be sure to have the paint in its proper condition, but not ready for use, as there are a few more operations to undergo.

**75c WILL
MAKE YOUR
AUTO LOOK
LIKE NEW**

Paints of different kinds are put up in different style packages. For instance, house paints come in packages of this kind. All that is necessary to open this package is to use an ordinary can opener, but **remember**, not before the paint has been thoroughly agitated.

**WE CARRY OILS
OF ALL KINDS**

If the pigment is thoroughly stirred up before you apply your paint on the surface to be painted, you are bound to get a uniform mixture. By all means don't fail to do this, as it will avoid streaks in the finished work and will not have the smooth, soft effect.

**SEE OUR
SPECIAL
PAINT AND
BRUSH
BARGAIN
PAGE 7**

When the pigment has worked up to a creamy substance, slowly pour back the liquid into the pigment and stir while pouring. This method of treatment insures a thorough combination of all ingredients in the paint and guarantees satisfactory results in the application.

A good many people waste paint and ruin brushes by dipping the brush too far into the can. The accompanying illustration will show about how far to dip your brush into the paint. This will give you a good brush full of paint to work with and at the same time will prevent the handle from becoming smeared with paint, which in turn would unnecessarily soil the hands of the user.

**TRY A CAN
OF OUR
FLOOR AND
WOODWORK
VARNISH**

Do not take a full brush of paint directly from the can and slap it on the surface to be painted, but gently press some of the paint from the brush by holding it against the side of the can, as shown in this illustration. You will then have sufficient paint on the brush to do your work with.

While you are painting, do not press too hard on the brush, but hold it gently, running smoothly and evenly over the surface to be covered. You will then get an even coating which makes a better finish, will last longer, dry quicker and cover more surface, which is just what you want.

After your job is complete, do not by all means leave the brush in the can. The bristles, you understand, are soft from using and will bend (see illustration), and will not work as it ought to on your next job, consequently, you cannot expect to do a good job with a brush that is all out of shape. **Carefully read the next article.**

**KALSOMINE
AN ENTIRE
ROOM
24c**

After your work is completed, do not let your brush dry up with all the paint in the bristles. This will not only give you unnecessary work when you again want to use this brush, but it will in time ruin bristles. The proper method of treating a brush after you are through painting, is to wash it out in benzine, and after cleaning it out well, hang it up on the nail, as shown in the accompanying illustration.

HOW TO FIGURE AMOUNT OF PAINT NEEDED

THE COST, or how to figure the amount of paint needed to paint a house, barn or fence is one of the most important and essential things you should know. The familiarizing ones self with the information explained below will go a great way in tending to prevent a short or an excessive order of paints, although it is better to be over than short, as you can always find something or other around the house that requires painting, thereby improving the appearance of the part painted at practically no cost whatever.

On new work that has not been painted, one gallon of **Harris Ready Mixed Paint** will cover about 250 square feet, two coats. On wood that is to be repainted, that is, if it is in fair condition, one gallon will cover 300 square feet, two coats.

EXAMPLE: Should your building measure 40 feet long, 20 feet wide and have an average height of 25 feet, you figure as follows:

Front and Rear, 20 feet each.....	40 feet.
Two Sides, 40 feet each.....	80 feet.
Total.....	120 feet.
Multiply by average height.....	25
	250 3000 (12 gallons required.)
	250
	500
	500

PLEASE NOTE that you add together the width and the length of the building, multiply by the average height, then divide by 250, which is the covering of one gallon for two coats; and the result, as in the example above, is 12 gallons, which is the amount of paint required to coat a house of the above size, two coats.

COST. We sell **HARRIS READY MIXED PAINTS** in various sized cans, and for the building below you would require two 5 gallon cans and two 1 gallon cans, viz:

The two 5-gallon cans we furnish at \$1.12 per gallon.....	\$11.20
The two 1-gallon cans we furnish at 1.15 per gallon.....	2.36
Total.....	\$13.50

Special Price For This Lot . . . \$12.50

FOR PAINTING BARNs or FENCES, use our **HARRIS BARN AND ROOF PAINT** and figure the same way..

DIRECTIONS FOR USING HARRIS READY MIXED PAINTS

FIRST: The surface must be thoroughly dry. Paint is very often applied to surfaces before it is dry, this causes the paint to blister and peel within a few weeks; don't blame the paint, this can happen to any paint. Prepare the surface by giving all knotty or sappy parts a coat of orange shellac. Remove all loose or old paint with a scraper and be sure to dust the surface if you want a nice, clean job.

SECOND: Open the can, then carefully pour off the liquid in an empty can provided for that purpose. Stir thoroughly, gradually adding the liquid you poured off; the paint is ready for use after this is done.

THIRD: For the first coat, reduce the paint to the proportion of one quart of linseed oil to one gallon of paint. Brush out well and let it dry thoroughly before applying the second coat. Allow 5 to 10 days for drying.

FOURTH: Putty all nail holes, cracks, etc. Watch carefully for these imperfections before applying the second coat.

FIFTH: For the second coat apply the paint in its actual thickness, brushing out well. If necessary, thin with linseed oil.

Remember the condition of the surface to be Painted has much to do with the results.

Never apply Paint in cold or wet weather, be sure to allow plenty of time between coats.

HARRIS READY MIXED HOUSE PAINT

\$1⁰² TO \$1¹⁵
PER GALLON

**Over Fifty Different
Shades To Select From**

THIS PAINT briefly described as to manufacture in foregoing part of this catalog is an original departure in beautifying protective coating, the word coating is especially adaptable to this material as it is so radically different from other paints in composition. The secret of durability, one of the features of **HARRIS READY MIXED HOUSE PAINTS**, is in the fact that it is almost all oil and a percentage of pigments (pigments are what tend to make paints brittle). No paint will last longer than the life of the oil which it must contain. This paint works smoothly under the brush as oil itself, hence it can be brushed out to a greater covering capacity than any other paint known. Combine this feature with the absolute non-fading properties of the colors used and you will have the secret of supremacy of our paints over any other paint on the market and the only paint you should consider if you want the best results in outside exposed painting.

IT IS POSSIBLE for us to furnish you

at the low prices quoted below, owing to the simple fact that our paint trade has developed to the point where we are able to dispose of the entire output of our large factory, and in view of our immense paint sales we are able to make our contracts on the most favorable basis, and are, therefore, in a position to save our customers the large profits that a regular dealer in paints is obliged to make. You can save 30 to 50 per cent per gallon. **HARRIS READY MIXED PAINTS** are equal and even superior to most of the paint sold at \$1.75 to \$2.00 per gallon. It often occurs that dealers will carry paint over from year to year and you have no assurance of getting your paint of uniform color and consistency. In buying

HARRIS READY MIXED PAINTS you are absolutely sure of fresh stock of the highest grade of ready mixed paint on the market. Bear in mind our **INSURANCE POLICY** is your protection and that we will replace gallon for gallon without cost to you, any **HARRIS READY MIXED PAINT** that fails to give the utmost satisfaction.

THE COST OF PAINTING

a house, barn or fence is so little, as compared to the value of protection against rot and decay, caused by the elements and to the length of time it prolongs your buildings, that you cannot afford to let your house, barn or fence stand unpainted. **HARRIS READY MIXED HOUSE PAINT** not only beautifies but protects your house against weather and other causes such as rot or decay. **OUR PAINT SUPT'S** long years of experience enabled him to find material to produce these protective qualities of this paint. His thorough knowledge of what they will do has made **Harris Ready Mixed House Paint** the most durable paint manufactured. It is made in 36 colors and put up in 50 gallon barrels, 25 gallon barrels, 5 gallon kits, 1 gallon cans, 1/2 and 1/4 gallon cans. We will also make to order promptly any shade that you may submit at the same price as our shade which it comes nearest to matching. Guaranteed to cover 250 to 300 square feet of surface, two coats, to one gallon.

CHALLENGE BARN PAINT 39^C to 48^C Per Gallon

We do not guarantee the lasting qualities of Challenge Barn Paint, neither do we recommend its use. If you feel prompted to buy the Challenge Barn Paint for economical reasons, we assure you that you will find it far more economical to buy the Harris Barn Paint, which is sold under our binding guarantee and would give you the utmost satisfaction. The Challenge Barn Paint is intended only for rough or temporary work.

LIST OF COLORS OF CHALLENGE BARN PAINT, Red, Brown, Maroon or Yellow.

9-M-709. Challenge Barn Paint, put up in 1-gallon cans. Your choice of any color mentioned above	48c
9-M-711. Challenge Barn Paint, put up in 5-gallon kit. Your choice of any color as mentioned above, per gallon.	45c

If you have buildings or fences or any kind of surface that you want painted and do not care for a lasting job, you will find our Challenge Barn Paint in every way satisfactory for work of this kind. The colors are strong and carefully ground; it brushes out freely and will present an attractive appearance. Owing to the very low price at which this paint is sold it is not ground in pure oil, which, of course, decreases its lasting qualities.

9-M-719. Challenge Barn Paint, 25-gallon barrel. Your choice of any color as mentioned above, per gallon.	43c
9-M-721. Challenge Barn Paint, in 50-gallon barrels. Your choice of any color as mentioned above, per gallon.	39c

GALLON**

**A Combination
of the Finest Mineral
Pigments,
Pure Linseed and Pre-
servative Oils**

AN IDEAL PROTECTION

OUR HARRIS BARN, ROOF AND FENCE MINERAL PAINT Is a high-class preservative for barns, roofs, fences and out-buildings. It is the only paint to use for structural iron and bridge work. A lasting preparation compounded by our expert chemist. Our paint superintendent is acknowledged to be the best known paint authority today—has 30 long years of experience producing paint according to the most modern methods, regardless of cost, and he guarantees that as a preservative for exposed surfaces, it is the best wearing, resisting mineral paint manufactured. It is absolutely waterproof and will not peel, blister, crack, or rub off and will withstand the most severe weather which outside paints have to undergo. It is a study to meet the extreme conditions in the warping, expansion and contraction of the open grained wood generally used in barn construction and exposed to the severest sun and weather action.

Harris Barn, Roof and Fence

Paint is of the highest quality composed of the very best materials, absolutely free from injurious ingredients that is possible to procure; and is manufactured and tested under the most trying conditions. The mineral pigments are thoroughly ground and re-ground with the finest linseed and preservative oils obtainable with the most modern up-to-date grinding machinery at our own plant. This places us in a position to save our customers the large profits that your local dealer is obliged to make; he can't understand how it is possible for us to furnish you with our line of Harris Paints at the low price quoted.

Why take chances in buying your paint from a stock that has been on hand for an indefinite period? Any experienced painter will tell you that paint freshly made up (such as ours) is much superior to a paint that has been mixed for some time.

Harris Barn Paint

Represents a brand so radically different from anything ever offered as "Barn Paint," it is in a class by itself, it not only forms a protective coating (not a penetrating stain like most barn paints which leave only the stained original wood surface), but with its rich, non-fading color contains also a powerful wood preservative which kills wood germs and destructive rot producing agents.

The Oil in Harris Barn Paint

Is practically the same as we use in our **Harris Ready Mixed House Paint**. Our red shade is the result of our absolute control of a natural product of pure iron oxide, the most durable pigment known. The chemical composition and its absolute non-fading properties make it impossible to duplicate with any other coloring agent.

Your Barn, Roof, Fences, in fact any house on your premises in need of paint will be very much improved by using **Harris Barn Paint**.

A great many manufacturers nowadays take and mix a cheap Venetian Red with nothing but gloss oil as a thinner. This we know is nothing but a cheap imitation of varnish, we will admit this combination will look as good and in some cases better than ours, but its life is short, it will not wear, it will fade and crumble in a very short time.

HARRIS BARN PAINT

ESPECIALLY ADAPTED FOR WAREHOUSES, FACTORIES, SHOPS, GARAGES, ETC.

A LASTING PRESERVATIVE

Better Than All Cheap Grades of So-Called Barn Paints

IN SOLICITING THE APPROVAL of our paint customers for a line of high grade Paint, we desire it understood at the start that popular favor with a full acknowledgment of paint manufacturing guaranteed facts. The necessity of manufacturing absolutely none but the very best is the most important of these, with the application of the long established **Harris Paint Policy** in looking after the interests of our paint customers during its long period of production.

In this day of highly perfected and mechanically ground paint, such as ours, paint is made to secure service or protection, as well as beautification. Our Paint Supt's ability and thorough knowledge of the combination of the ingredients to produce these results, regardless of cost, enables us to furnish you with clean, cut paint which gives it its value for cost character, placing it above all others. This, we believe, accounts for our ever increasing yearly volume, and with our reputation for square dealing, promptness and guaranteed satisfaction we take some pride in saying that our Paint has been absolutely without disappointment or dissatisfaction, and we are ever ready to make good regardless of whom was at fault, and that we have encouraged our customers to expect from it, as purchased **SERVICE AND QUALITY ABOVE ALL THINGS.**

WE CAN NOT CLAIM to have realized the perfect Paint, but we do claim to approximate it as good as any and better than many, and we are prepared to prove that you cannot secure higher grade paint than is to be had by buying Harris Ready-Mixed Barn, Roof and Fence Mineral Paint; and we have no desire to pretend that we are the originators of paint knowledge nor designers of paint manufacturing facilities, and we doubt if the good common sense of the average purchaser is taken in by such arguments; but we do desire to make the strong and straight forward business appeal that we have been making the best paints on the market and will continue to do so—there are none better than the best.

We recognize the fact that no paint manufacturing concern is too large to profit by the experience of the customer in the use of its product. The paint that is developed as a result of long years' experience such as ours is sure to be a paint that you can depend upon, one that is properly ground and mixed in exact proportions—thus insuring the strongest colors, durability and ease of application.

We are, 'tis true, quite fortunate not to be handicapped by trying to sell something new in the paint line, but we firmly confess that a great deal of our confidence in Harris Paint lies upon the results of the thousands of users of our Paints.

There has been, up to date over one million gallons of these paints, bearing the name HARRIS, in the hands of buyers of good paint, and at this time the demand for our goods is remarkable, and we desire it to be strictly understood that the paint offered here is strictly reliable and guaranteed to do as we claim.

Does It Pay In this day of close competition every dollar must earn its utmost, whether it be in a business transaction or a saving in expense.

The cost of painting a house, barn or fence is so little compared to the value of protection against rot and decay caused by the elements, and to the length of time it prolongs your buildings that you cannot afford to let your house, barn or fence stand unpainted.

Illustration of Our 5-Gallon Kit

Regarding Formulas

Formulas mean nothing. It is the care and knowledge and a constant watch that makes the paint, and no formula in the world will make a good paint by an inexperienced man, so do not let anyone convince you that he has got an article just as good, made the same way as no man can do it. Some people who have obtained some formulas of ours and who think that the formula makes the paint are just about as well fixed as if you give anybody a cook book and expect them to prepare your meals the same as an experienced cook.

Our Barn Paint Will last longer and look better than any other brand on the market. Our guarantee on Harris covers every kit, can or package bearing the name "HARRIS."

HARRIS BROTHERS CO.
15th & Iron Streets, Chicago.

The Proof of Any Paint is Its Wearing Qualities

HARRIS DURABLE FLOOR PAINT

28^c PER QUART TO 98^c PER GALLON

HARRIS READY MIXED FLOOR PAINT is a specially prepared paint made to resist the wear and tear of shuffling feet, heel marks or scratches, the severe tests of alkali soap, hot water, washing and scrubbing; it will not only resist this severe action, but must retain the bright, shining surface demanded by the most scrupulous housekeeper. It is the only floor paint to buy if you want the most durable and best all around floor paint ever put on the market.

The superintendent of our PAINT and VARNISH PLANT has studied the requirements demanded on this particular oil and varnish color, and has continually improved upon it by using special high grade ingredients that are known to have the best resisting qualities manufactured, regardless of the price.

This paint dries over night with a high gloss, and will remain dust free, and will be hard enough to walk on in 24 hours. No amount of washing will injure the surface, and will never spot white or discolor. It is equally desirable for old or new floors. We guarantee that should you use our HARRIS READY MIXED FLOOR PAINT you will be highly pleased with the results.

NEW FLOORS WHICH HAVE NOT BEEN PREVIOUSLY PAINTED REQUIRE THREE COATS. Old floors which have been previously painted, require two coats. ONE GALLON WILL COVER FROM 300 TO 350 SQUARE FEET, TWO COATS, AND FROM 200 TO 250 SQUARE FEET, THREE COATS, AND WILL DRY IN 12 HOURS. It is easily applied. Anyone who is capable of handling a brush can make a first-class job. On old floors it is merely necessary to wash the floors thoroughly, removing the dirt, dust and grease and apply the paint 24 hours after washing. The application of our Floor Paint will wonderfully improve the appearance of the room and relieve the housewife from constantly scrubbing the floor. A painted floor is sanitary and is more easily washed up.

Harris Durable Porch Floor Paint

HARRIS PORCH FLOOR PAINT is especially prepared paint for outdoor porches and stairways, to resist the rain sun, and, in fact, the most severe weather of any climate. It is the most durable porch floor paint made, and its wearing qualities are superior to all others. This paint has been put to the most trying tests known, merely to satisfy ourselves as to its action. We all know that no other surface receives the wear and tear that porch and stairs do. It is guaranteed to stand more foot wear and general

usage than all other porch paints on the market. It is practically made of the same special high grade ingredients used in our HARRIS DURABLE FLOOR PAINT. It is known to have the greatest preserving and resisting qualities for all exposed surfaces. It dries over-night and retains a high luster. Our HARRIS PORCH FLOOR PAINT will wonderfully improve the appearance of your porch and steps. It is easily applied. Don't fail to wash the surface to be painted thoroughly. Remove the dirt, dust and grease. Apply paint about 24 hours after washing. It is made in the same shades as our regular floor paint. **Our Paint Insurance Policy covers this line fully. Read it again.**

HARRIS AUTO AND BUGGY FINISH

45c PER QUART \$1⁶³ GALLON

The Harris Finishes are complete paints and varnishes combined. They are blended in our paint factory by a **SECRET PROCESS**, so that two painting operations are reduced to one. The results are those brilliant deep lusters that you see in the highest grade enamels and in the best and most expensive carriage and automobile finishes.

Furthermore, these exceptional finishes are absolutely weather-proof. You could leave an object in the sun at 100 degrees, then thoroughly moisten and put in a refrigerator below freezing point, and you would not detect a single crack, check or discoloration. You might repeat this test every day for six months, and even then the remarkable Harris finishes would be in excellent condition.

Why continue with your scratched and stained automobile, boats, furniture, etc.? Don't let them continue to depreciate. It is inexpensive and easy to beautify any object, and make it last a great time longer.

These finishes are made of non-fading pigment carefully ground into the best carriage finish, combined with other materials by a secret process.

They are ready for the brush when you receive them and flow readily.

Colors: Vermilion, Red, Wine, Black, Yellow, Blue, Green and Brewster Green.

OUR BARGAIN OFFER

This is a combined gear and finish varnish—a special high grade article compounded in our large paint factory. It is made in a secret process which eliminates the finishing room and the expert finishers from all jobs. Now all you have to do is to apply this varnish to your auto, buggy or boat; it dries quickly and evenly, leaving a bright new surface as smooth and hard as plate glass. Sun, heat, rain or cold will not affect it.

"Every ounce is **GUARANTEED**."

A special feature is the patent nozzle top, which always keeps the varnish fresh.

"HARRIS" WAGON AND IMPLEMENT PAINT

OUR HARRIS WAGON AND IMPLEMENT PAINT for painting wagons and farm machinery is as near perfect as modern paint manufacturing can possibly produce it. The quickest way to educate the average owner of wagons and implements to added durability and economy of a coat of **OUR HARRIS WAGON AND IMPLEMENT PAINT** to his wagon or farm machines, is to have him hear the remarks of approval of those who see the results of his labor of a few moments with a can of our wagon and implement paint, from our own paint and varnish plant direct to you.

The paint works out so easily under the brush with a full varnish luster. The change from the old weather worn surface to the just as good as new look is so easy you will never let the earmarks of neglect show around the old place again.

A half pint of **HARRIS WAGON AND IMPLEMENT PAINT** at only 14c, any color, and 20 minutes' time, will make your plow look like new. Such a slight expenditure of time and small change to acquire a reputation for details, is surely the foundation of prosperity.

OUR HARRIS WAGON AND IMPLEMENT PAINT works equally satisfactory over wood or iron, making a finished surface which will withstand all kinds of weather. In addition to greatly improving the appearance of your wagon and implements, it is real economy to paint them. It is surprising how many people will allow valuable wagons and farm machinery to decay and rust, simply because they had neglected to spend a few cents and a little time in painting them.

If you have a wagon or implement of any kind that needs painting, you will be surprised at the results you will obtain by using **OUR HARRIS WAGON AND IMPLEMENT PAINT**. One coat positively protects them from the appearance of hard usage. All you have to do is to sandpaper and thoroughly clean the surface to be painted and apply the paint without thinning. You cannot put in a rainy day to better advantage than by painting your various pieces of farm machinery and wagons with our wagon and implement paint.

It is made just as **OUR HARRIS AUTO AND BUGGY FINISH**, except another special wagon varnish is added, which is especially prepared for this mixture with coach colors by our own varnish plant.

One half gallon at 69c will paint the average wagon and make it look like new. Each can contains quick change for the better for any weather worn implement or wagons, and by better, we mean, equal to most wagon factory results, at a cost so trifling you can't afford to be without a can or two.

It is put up in 5 beautiful colors, Blue, Green, Vermilion, Yellow and Black. When ordering, be sure to mention the name of color.

The World's Best Paint Bargains, We Have Them

HARRIS CREOSOTE SHINGLE STAIN

SPECIAL FEATURES

Creosote is acknowledged to be the best wood preserver known at the present time. This Harris Creosote Shingle Stain is scientifically prepared, the colors are extremely durable and penetrating and will positively not fade. We offer the shingle stain as a particularly high grade article. We do not pretend to compete with the cheap mixtures offered by many dealers. We well know that this stain will give our customers the best of satisfaction, hence make more trade from friends and neighbors.

HOW APPLIED

Harris Creosote Shingle Stain can be applied with a brush after the shingles are laid or the shingles can be dipped before laying. When applied with a brush one gallon will cover about 150 square feet of surface, one coat, or 100 square feet, two coats. For dipping it requires from 2½ to 3 gallons to dip 1,000 shingles. The shingle need be dipped only two-thirds of its length. This stain can be used on wood tanks and troughs. It preserves them.

A GOOD INVESTMENT

A shingle roof is expensive and you no doubt realize the importance of using a preservative which will make them water proof and will thereby prevent them from rotting out.

HARRIS WEATHER PROOF CEMENT FLOOR COATING

On ordinary floors it is almost impossible to make them look clean, but with our Harris Cement Floor Coating, they not only make an attractive appearance, but are durable, and it is almost impossible for any dust to lie on the surface. The concrete absorbs moisture so rapidly that it is impractical to clean them by ordinary methods.

Harris Cement Floor Coating makes the surface water-proof and at the same time so binding the particles that the dust making feature is eliminated.

Just what you want for coating on cement, stone, brick, concrete and stucco.

Lot No. 9-M-1211.	1 quart.	Per can.	\$0.42

Lot No. 9-M-1217.	5 gallons.	Per kit.	7.00

For sanitary purposes this coating cannot be excelled. Superior to all others.

We Can Furnish Same In the Following Colors: Cement, Pearl Gray, Slate, Terra Cotta

Harris Flat Wall Paint

This material must not be confused with kalsomine or water paints, as it is strictly an oil paint, drying down to a beautiful soft, non-gloss tone and possessing that tough, elastic finish which prevents plaster or cement from cracking or crumbling, whereas water paints would not. Cheaper than wall paper, more easily applied and more sanitary. Lasts forever, and only needs washing with soap and water to make it like new. Will not rub off on the clothes as kalsomine does. It is prepared in liquid form ready for use, and put on with a brush; dries to a hard surface, which may be washed and is unaffected by steam or heat. Will not spot, turn color or fade. Made in the following nine shades (see house paint color card): Tan, Light Yellow, Pea Green, Grey, Yellow, Pink, Azure Blue, Deep Green, Maroon. Remember that these shades appear on our regular color card, and this Flat Wall Paint shows the same color in every way as the house paint color card shows, except that it will not be glossy, but will be flat and without luster. Applied with a brush, same as house paint. Figure 1-gal. can will do 200 square feet, two coats.

5 and 10-Gallon cans, per gallon.	1.40

HARRIS WEATHER PROOF CEMENT COATING

When placing before the public our Harris Weather-Proof Cement Coatings, we give them our best efforts of years of experimenting with this peculiar style of paint and have resorted to all means to carefully compound a formula that will withstand all elements. Harris Cement Coating is strictly formulated after exhaustive tests to meet the exact physical and chemical requirements of a masonry surface, providing the most efficient and damp-proofing treatment for exterior masonry surfaces. It penetrates into the pores of the surface and on hardening thoroughly seals them, preventing any possibility of the absorption of water into the treated area. It is thoroughly uniform and equalizes the color and imparts a finish of the most attractive nature. This finish dries to a flat, uniform, stonelike texture without any tendency to impart a painted appearance to the surface. The damp-proofing efficiency of the Harris Cement Coating is not only evident in eliminating the saturated appearance of the treated area after a rain and the tendency of the surface to become stained and unsightly, but by excluding the dampness from the wall, maintains a perfectly dry and sanitary condition on the inside.

We can furnish same in the following colors: Dark Cement, Moss Green, Tan, Brown, Copper Color, Slate.

Will not wash off, it stands all kinds of weather and clings to the material it is applied on.

Harris High Gloss Enamel

FOR FINE INTERIOR ENAMEL WORK

A HIGH GRADE INTERIOR FINISH on woodwork or plaster walls. Especially for use on walls where you wish to have a real enamel finish. This result has been secured in the Harris High Gloss Enamels so well that the largest and most modern hospitals have placed their stamp of approval on them and specifically state they will consider no others.

These Enamels are especially prepared to meet the "easy to apply" requirements of the novice or housewife. They work easily under the brush and will produce the same results as though you secured the services of an expert. It is particularly adapted for walls and ceilings in bedrooms, bathrooms and kitchens, making an impervious enamel finish. It is also used extensively for work on hedges, exposed pipes and

other metal surfaces. Made in twelve beautiful, delicate shades, representing the highest attainment in the study of compounding paint materials to produce a marble tile-like surface:

White	Vermilion	Orange	Green
Pale Blue	Sea Green	Royal Blue	Carmine
Bright Green	Rose Pink	Silver Grey	Black

Harris High Gloss Lacquer

FOR REFINISHING FURNITURE AND OTHER WOODWORK

HARRIS GLOSS LACQUER should be in every household. Scratched and marred pieces of furniture and floors can be made into new and beautiful objects; can be applied by the most inexperienced person, and at an expense of a few cents you can convert a piece of furniture on which the finish has become marred so that it will look like new. Best of all, this beautiful finish can be applied by any housewife and the work will be as satisfactory as if an experienced wood finisher had done it.

If you have in your house, from basement to garret, a chair, table, chifonier, bedstead, book case or desk or any floors or woodwork, baseboards or doors which you would like to renew in the natural wood colors, all you need is a small amount of Harris Gloss Lacquer. A few minutes' time and a small can of Harris Gloss Lacquer will change any article in the house to a bright, new-looking object. Directions for use of Harris

Gloss Lacquer are printed on all cans. Made in the following shades:

Light Oak	Flat Black	Dark Oak	Mahogany	Flat White
Cherry	Rosewood	Moss Green	Royal Red	Ground Color
Gloss White	Walnut	Gloss Black	Clear

Apply Harris High Gloss Lacquer with a flat varnish brush. For brushes see our pages of Brushes. Be sure to mention name and number of colors when ordering.

Bath Tub Enamel

AN ORDINARY IRON TUB can be made to look like the finest porcelain tub by the use of our Bath Tub Enamel. Produces a hard, smooth, highly polished and non-absorbent surface. Effectually resists the action of hot and cold water, soaps and other preparations used in baths. In fact, it will resist the wear and tear which bath tubs usually undergo. With one pint you can do over and give it that new effect of an iron, tin or paper tub, or you can use it with the same remarkable results on sinks, and wood and iron work about the house. No skill is required. It can be easily applied with a 1 1/2-inch varnish brush and will dry over night.

Harris Floor Wax

HARRIS FLOOR WAX is a specially prepared compound for polishing hardwood floors. It produces a lasting, brilliant polish. Floors can easily be kept clean by using Harris Floor Wax, as dirt and dust will not stick to it; it will not change the color of the wood, as it is transparent. It can easily be applied, dries quickly and can be rubbed to a brilliant polish, producing a lasting finish. One pound is sufficient for about 300 square feet. Directions are simple and easily understood and are printed on every can. It is put up in 1-pound cans only.

Wall Paper Cleaner, 8c Per Can

All it will cost you is 8c for enough Wall Paper Cleaner to renew an ordinary sized room. It makes old wall paper clean, bright and fresh as new. Works equally as well on Fresco, Calamine, Window Shades, and all interior decorations. Absorbs all smoke, dust and dirt. Will not stain or fade the most delicate colors. No grease, acids or other ingredients. Mixed, ready for use.

9-M-10855. Price, per can.....**8c**

Harris Varnish Stain

Stains and Varnishes in One Operation

Recommended for use over a surface already varnished or painted, such as old furniture, varnished or painted woodwork. It is necessary, in order to obtain the best results, to use a stain of a similar shade as the old finish. You cannot finish a Mahogany chair Light Oak by applying Light Oak Varnish Stain. If a change of color is desired, we would recommend the use of our Harris Gloss Lacquer. By using the Ground color as a first coat and the Harris Gloss Lacquer as a finishing coat the change of color can be made. Harris Varnish Stain dries hard with a high luster and is easily applied with a varnish brush. It is made in the following colors: Cherry, Mahogany, Rosewood, Dark Oak, Light Oak, Walnut, Antique Oak.

OUR INSURANCE POLICY COVERS THIS LINE FULLY. READ IT AGAIN—

HARRIS VARNISHES

Realizing the importance of furnishing varnishes that will give perfect satisfaction for the purpose for which they are intended, we offer our line of Harris Varnishes which are manufactured from the finest selected imported gum at the newest, largest and best equipped plant in the United States.

We guarantee our Harris Varnishes to give perfect satisfaction in every particular where directions are followed, or money refunded.

In presenting our line of Harris varnishes we do so with the utmost confidence that they will prove entirely satisfactory. Under the favorable arrangements which we have made in the manufacture of these varnishes, our prices will represent a considerable saving to you. You will please bear in mind that each of the various grades offered are the best of their respective kinds on the market.

Harris Extra Light Hard Oil Finish.

9-I-1001. This is a good, durable varnish. Has a fine gloss and will rub nicely. It is light in color and will dry dust proof in 8 hours. Can be rubbed in 48 hours.

Pint — Quart — ½ Gal. — 1 Gal. — 5 Gal.
22c — 38c — 73c — \$1.19 — \$4.99

Harris No. 1 Hard Oil Finish.

9-I-1003. This Hard Oil is well adapted for any inside work. Dries hard over night with a gloss and is elastic and durable. It is slightly darker in color than our Extra Light Hard Oil.

Pint — Quart — ½ Gal. — 1 Gal. — 5 Gal.
19c — 32c — 55c — 95c — \$3.99

Harris Coach Varnish.

9-G-1005. A fine grade of Interior Finish for use on all kinds of woodwork, furniture or over graining. Works freely and dries hard over night with a high gloss.

Pint — Quart — ½ Gal. — 1 Gal. — 5 Gal.
25c — 40c — 68c — \$1.20 — \$5.00

Harris Extra Coach Varnish.

9-G-1007. Suitable for the best interior work. A varnish of medium color and good body and very durable. Can be rubbed or left in the gloss. Dries dust free in 3 to 4 hours and sufficiently hard for rubbing in about 48 hours.

Pint — Quart — ½ Gal. — 1 Gal. — 5 Gal.
28c — 43c — 75c — \$1.30 — \$6.00

Harris Extra Furniture Varnish.

9-G-1009. A strictly high grade varnish, used largely by manufacturers of high grade furniture. Is very durable and gives a hard and brilliant luster which can be rubbed and polished. Guaranteed suitable for first class furniture finishing.

Pint — Quart — ½ Gal. — 1 Gal. — 5 Gal.
23c — 42c — 73c — \$1.28 — \$5.50

Harris Furniture Varnish.

9-G-1011. This is a very reliable varnish for ordinary finish. Dries rapidly and gives a high luster. Suitable for use in brightening up worn or lusterless furniture. Recommended for general repair work.

Pint — Quart — ½ Gal. — 1 Gal. — 5 Gal.
18c — 31c — 52c — 85c — \$3.67

Harris Wearing Floor Varnish.

9-G-1013. A high grade floor varnish, suitable for use on floors of all kinds. Natural wood or painted. This is an elastic varnish and will not scratch, turn white or show heel marks. It is manufactured specially for floors and contains the best material. It is perfectly transparent and will preserve the natural wood for years. The most economical and durable floor finish made.

Pint — Quart — ½ Gal. — 1 Gal. — 5 Gal.
29c — 53c — 95c — \$1.70 — \$8.00

Harris White Damar Varnish.

9-I-1015. Made from imported Batavia Gum. For finishing over any enameled surfaces, White or Ivory, without producing discoloration. Can also be used with excellent satisfaction on fine wall paper hangings or on delicately tinted painted walls. Is of good body and dries well.

Pint — Quart — ½ Gal. — 1 Gal. — 5 Gal.
23c — 41c — 77c — \$1.38 — \$6.38

Harris Interior Spar Varnish.

9-I-1017. Adapted for interior finishing of residences. Light in color and made from pure hard gum. Can be left in the gloss or rubbed if desired. Dries hard for rubbing in about 3 days.

Pint — Quart — ½ Gal. — 1 Gal. — 5 Gal.
28c — 50c — 76c — \$1.35 — \$5.75

Harris Outside Spar Varnish.

9-G-1019. For finishing all kinds of exposed surfaces. For exterior use, such as outside doors, windows, gates and in fact any work that is exposed to the weather. It is also suitable for finishing woodwork in bath rooms or any woodwork that may have hard usage or come in contact with water.

Pint — Quart — ½ Gal. — 1 Gal. — 5 Gal.
33c — 58c — \$1.07 — \$1.93 — \$9.15

Harris Church and School Seat Varnish.

9-G-1021. Hard Drying Pale Varnish, specially suitable for use on church and school seats and other surfaces subjected to pressure and moderate heat. It is pale, brilliant, a hard dryer and very durable. Dries dust free in 5 or 6 hours. Hardens in 48 hours.

Pint — Quart — ½ Gal. — 1 Gal. — 5 Gal.
30c — 54c — 98c — \$1.75 — \$8.25

Harris Oil Shellac.

9-G-1023. Used as a first coater or filer for new woods that have not been previously finished. It is clear, has a good body and produces a substantial and safe surface or base coat. It dries to sandpaper from 6 to 8 hours.

Pint — Quart — ½ Gal. — 1 Gal. — 5 Gal.
20c — 35c — 65c — \$1.15 — \$5.25

Premier T. Japan.

9-G-1025. Is a very reliable heavy bodied linseed oil drier. Will mix with any paint formula without any bad results. Is transparent and has a tendency to add durability to paint instead of burning up the durable qualities of the oil. It would be impossible to make a more practical and serviceable japan.

Pint — Quart — ½ Gal. — 1 Gal. — 5 Gal.
18c — 30c — 50c — 80c — \$3.45

Harris Gloss Oil.

9-G-1027. A gloss oil for sizing plastered walls before calceining.

Quart — ½ Gal. — 1 Gal. — 5 Gal.
20c — 30c — 50c — \$2.00

Harris One-Coat Coach Varnish.

9-G-1031. An excellent varnish for general repair work on carriages where the surface is dull or lusterless, otherwise in good condition. One coat of this varnish on the entire vehicle will produce a finish practically equal to a new job. It is light in color, elastic, brilliant, and durable. Dries free from dust in about 12 hours and hardens to permit the use of the vehicle in about 3 days.

Pint — Quart — ½ Gal. — 1 Gal.
30c — 50c — 90c — \$1.75

Harris Wagon and Implement Varnish.

9-M-1035. For agricultural implements, wagons, etc. A good varnish for general outside work. Has an excellent body, a fine luster and light in color. Wears well and dries in about 10 to 14 hours.

Pint — Quart — ½ Gal. — 1 Gal.
25c — 38c — 70c — \$1.35

Harris Coach Japan.

9-G-1037. A light color dryer, possessing superior binding and drying qualities. For colors and rough stuff.

Pint — Quart — ½ Gal. — 1 Gal.
25c — 44c — 78c — \$1.35

Harris Denatured Alcohol Shellac.

Made from the finest grades of Guaranteed Pure Gum Shellacs in Denatured Alcohol. Used as first coat on furniture and all interior woodwork, except floors on which varnish is to be applied. Dries hard in about 2 to 4 hours. Will cover from 300 to 400 square feet, one coat. Pure Orange Shellac will give the wood an Oak color. White Shellac is used where no color is desired. Also recommend it for coating knots and sappy spots before painting.

9-M-1039. Pure Orange Shellac.
Pint cans—Quart cans—½ Gal. cans—1 Gal. cans
25c — 45c — 80c — \$1.50

9-M-1041. Pure White Shellac.
Pint cans—Quart cans—½ Gal. cans—1 Gal. cans
30c — 48c — 88c — \$1.55

Harris Floor Oil.

9-G-1043. Harris floor oil. Prepared especially for floors of residences and stores, small quantity applied with a cloth will bring out the natural color, and make scrubbing unnecessary. Floors oiled with Harris Floor Oil are easily cleaned by washing them with soap and water.

Pint — Quart — ½ Gal. — 1 Gal. — 5 Gal.
25c — 42c — 73c — \$1.25 — \$5.95

Harris Black Covering.

9-G-1047. For Nigrite kinds of castings smokestacks, fenders, coal hods, iron work of agricultural implements, etc. It produces a jet black brilliant finish and absolutely prevents rust or corrosion. It is heavy in body, and quick drying.

½ Gal. — 1 Gal. — 5 Gal.
30c — 45c — \$1.95

Harris Liquid Wood Filler.

9-G-1049. For filling or first-coating all kinds of close grained natural woods, such as pine, poplar, etc., that have not been previously finished. It thoroughly seals up the wood pores and effectually prevents suction or the absorption of moisture. This material is transparent and does not need to be rubbed off or sanded before applying varnish coats. It does not sink away like varnish, but dries on the surface, thus making it equal for work of this nature to 2 coats of varnish. A coat or two of varnish applied on this work produces a really remarkable finish. One gallon will fill the grain on about 500 square feet.

Quart — ½ Gal. — 1 Gal. — 5 Gal.
30c — 58c — \$1.10 — \$5.40

Harris Paste Wood Filler.

9-M-1051. All hard or open-grained woods such as oak, ash, etc., should be filled in order to obtain a perfect varnish. Our Paste Wood Filler is better than any other as it completely fills the pores, making an impervious surface over which to varnish. Apply with a brush and after allowing 20 to 30 minutes to set, wipe off smooth with a rough piece of burlap, wiping across the grain. Allow at least 24 hours for the filler to dry. Sandpaper the surface smoothly and you are then ready for the varnish.

Ten pounds will fill about 450 square feet. Made in three shades, natural, light oak and dark oak.
1 pound can — 5 pound can — 25 pound can
7c — 30c — \$1.40

Crack and Crevice Filler.

9-G-1053. A superior elastic preparation for filling cracks in floors or woodwork before painting. Will not shrink.

1 pound can. — 5 pound can
12c — 55c

Harris Linoleum and Floor Oil Cloth Finish.

9-M-933. Do not let your floor, oil cloth or linoleum wear out when you can, for a few cents, preserve it and give a most lasting and finer finish than it had when new. Put this material over your linoleum. It gives it a hard, smooth, elastic finish that will bend as the linoleum does and will not crack. It overcomes the uneven wearing quality of linoleum, which has always before been objectionable. It keeps your floor bright and beautiful and largely increases the life of the linoleum or oil cloth. Not affected by hot or cold water. One coat put on at night will be all that is needed—dries to walk on the next morning. One quart will cover about 175 square feet.

Pint can—Quart can—½ Gal. can—1 Gal. can
26c — 48c — 90c — \$1.75

WE REPRESENT THE LARGEST INDEPENDENT OIL REFINERY IN THE UNITED STATES, owning their own wells and tank lines. Complete Line of Pumps of All Kinds, Lowest Prices.

HARRIS MINERAL ASPHALT PAINT

For Wood, Metal or for Composition Roofing Surfaces.

The only colored paint manufactured with an asphalt body and for this reason is an ideal roofing coating. It is tough and elastic. The colors produce a fine effect and will harmonize with the shades used in your house paint.

The only colored paint on the market that will give perfect satisfaction on felt, rubber and composition roofing.

Harris Mineral Asphalt Paint is entirely different from any other brand that is manufactured. It is made of the best grade of Trinidad Asphalt melted and specially treated and combined with pure kettle boiled Linseed Oil. Can be used to advantage on any kind of surface. It is not affected by contraction, expansion, acids, gases or alkali. When dry it forms a tough, elastic and impervious surface. It has a high gloss and is the most durable and best preservative paint on the market.

We recommend it for wood, metal or composition roofing surfaces.

Covering Capacity: One gallon will cover 200 to 250 square feet of surface, one coat on a fairly smooth surface. Guaranteed not to contain a trace of coal tar.

Protecto Asphalt Paint

An unequalled preservative paint for roofs and exposed surfaces. After much investigation we are able to offer in our Protecto Asphalt Paint what we believe is undoubtedly the best paint on the market for preserving metal and felt roofs, wire fences, fence posts, tanks, agricultural implements, and in fact all exposed surfaces, from the ravages of rust and decay.

Protecto Asphalt Paint, made of the highest grade of Asphalt, combined by special process with mineral oils. No coal tar, rosin or other cheap materials enter into its composition.

When applied to a metal surface one gallon will cover 300 square feet, or 200 to 250 square feet on rubber or felt roofs one coat, giving a glossy black finish which is not affected by the weather and which will not crack or peel. For use around factories, it is unequalled on smoke stacks, boilers, pipes and machinery. It will not tint the water and can be used for painting the inside and outside of cisterns to prevent seepage.

HARRIS LIQUID GLUE

9-F-343. **STRONGEST AND MOST DURABLE GLUE MANUFACTURED.** For home and shop use. **GUARANTEED TO GIVE PERFECT SATISFACTION.** For mending wood, metal, leather, china, glass, crockery, porcelain and all other substances, and is entirely free from fishy or other objectionable odors.

Put up in self-sealing collapsible tubes and improved screw top cans, with large opening, giving the user the benefit of the full contents of the can.

1-oz. tube, Each.....7c
Per dozen.....75c
1/2 gill can, with brush.....9c

Our Harris Lead is non-poisonous and guaranteed to be more durable by far than any pure carbonate of lead manufactured. It is carefully ground and scientifically formulated mixture of lead and zinc ground in pure oil. Instead of using common acid corroded "Dutch Lead," such as is commonly sold and used, and is the cause of all the cases of painters' colic and lead poisoning, we use a fire refined lead which will not poison the user if it happens to get into the pores of the skin. The zinc prevents the lead from chalking and powdering or rubbing off on the clothes, as the years go by, and this Harris Lead is way ahead of ordinary so called "Pure" and "Old Dutch Process" White Leads.

12 1/2 ".....8 1/2c

Our Eclipse Lead is an excellent lead for all around use—especially recommended for priming coats or use with colors. It is absolutely durable, ground in pure oil, fairly white, but is not intended for the highest class of service and for white work—better use our Harris Lead for such uses, as it will give better service and is well worth the slight difference in price we ask. Both are put up in tight, strong, steel packages, which make excellent and indestructible pails, pots and kettles when empty.

HARRIS BROTHERS CO.
38th & Iron Streets, Chicago.

IMPROVED RUBBER GRAINING ROLLERS.

9-M-1501. Improved wood grainers. Are composed of three rubber rollers, 5 inches in length. With the corrugated roller any known growth of wood can be imitated. Quarter-sawed oak grain is produced with roller No. 2 with the irregular grooves. No. 3 is used in place of combs for straight line work. In connection with the other two rollers this roller is made with three sizes of combs. Any one with a set of improved graining rollers, with a little practice can do a perfect job of graining and imitate the natural growth so that it will be almost impossible to distinguish the natural grain from the grain made by improved wood grainers. Complete instructions packed with each set. Weight, 14 ounces. Price per set of 3 rollers.....**94c**

HOUSEHOLD GRAINING ROLLERS.

9-M-1503. For graining doors, wainscoting, floors and woodwork of all kinds. A first class job can be done without previous experience. We refer you to our Colors in Oil for graining colors. All that is necessary is a can of Graining Colors and a small quantity of turpentine or benzine and a household graining roller to do first class work. Price per roller, only.....**28c**

RUBBER GRAINING COMBS.

9-M-1505. Used in place of steel combs for a certain class of work. The rubber securely set in wood handles. The highest grade rubber comb made. Packed in cardboard boxes in sets of 12 combs assorted, six, nine and twelve teeth per inch. Price per set of twelve combs..**55c**

STEEL GRAINING COMBS.

9-M-1507. High grade English graining combs. Best quality of steel, in sets of 12 combs assorted, 1 to 4 inches, in tin compartment case. Price per set.....**70c**

GRAINING CHECK ROLLERS.

9-M-1509. Double line graining check roller for producing the oak overgrain. A better imitation is obtained with double line check roller than with single line rollers....**50c**

GLASS CUTTERS GUARANTEED TO CUT.

9-M-1511. Royal Glass Cutters. Hard, bright steel frame, cutters revolve on steel pin in steel cap. Japanese Handle. Cutter made from the highest speed steel. **6c**

THE ECONOMY TRIMMING OUTFIT.

The most practical outfit at a popular price that has ever been invented. Trimmer made of pressed steel with fewer parts than any Trimmer made. Nothing to wear out. Nothing to get out of order. Straight Edge made of steel and wood, the steel being formed in such a way as to prevent its warping either edgewise or flatwise. We believe the above illustration will enable you to see the advantages of this edge. This outfit is designed for light work and for this particular class, has no equal.

9-M-10572. Price of Outfit complete, consisting of Trimmer, 6 ft. Straight Edge and 6 ft. Zinc Strip.....**\$2.50**

For heavy work, order our Harris Complete New Standard Outfit.

HARRIS COMPLETE NEW STANDARD OUTFIT

Consists of the following: 1 No. 1 Standard Roller-bearing Trimmer. 1 Standard laminated five-piece brass-bound Straight Edge. 1 extra heavy Zinc Strip 3 in. wide, same length as Straight Edge. This outfit is so practical and up-to-date that it will be appreciated by the most exact workman. The Trimmer has absolutely no tip or wobble, so deadly in other trimmers, to good straight work. It must always cut true. It cannot bite the edges or wear the brass and the pressed steel gauges cannot break off. Insures the trimmer fits the track without jump, jar or jolts.

9-M-10578. 6 ft. Outfit complete as described......**\$3.20**

9-M-10579. 7 ft. Outfit complete......**\$3.35**

9-M-10580. 8 ft. Outfit complete......**4.00**

HARRIS READY MIXED PURE PAINT

ABSOLUTELY PURE—ITS WEARING QUALITIES ARE GUARANTEED

PURITY

We use nothing but strictly pure sublimed white lead, the best grade of pure oxide of zinc, pure linseed oil dryer and the highest grade pure colors for tinting wherever they can possibly be used. You cannot obtain any better paint of this kind anywhere, and whenever you pay more than we ask for this paint you are absolutely getting no return value whatever. Don't let anyone tell you that more expensive material than we use in manufacturing these goods is obtainable. There is none. Should anyone discover more expensive materials, we will use them.

GALLON \$1.47

BY THE BARREL

PLANT

Our paint plant is one of the most modern, up-to-date types. Our Paint Superintendent, who has been in the business for over 30 years, and knows all about paint from the ground up. He is recognized all over the country as one of the few men in whom are combined the rarely associated qualities of the successful business man and the practical chemist, and to this combination is due, undoubtedly, a complete uniformity of product throughout our plant, which, perhaps, cannot be duplicated and certainly is not excelled in any other paint and varnish works in the country.

SATIN KOTE KALSOMINE

KALSOMINE AN ENTIRE ROOM
FOR 24 CENTS

Will not rub, peel or blister. It is furnished in Yellow, Light Blue, Ivory, Medium Green, Salmon Pink, White, Light Green, Buff, Light Pink, Pea Green, Light Buff, Cream, Blue, Lavender, Light Grey.

This is a specially prepared powder, made to fill a long standing need for the decoration of walls and ceilings. It produces a smooth, velvety flat finish, which is absolutely fire-resisting and sanitary. It will not rub off and costs much less than wall paper or paint.

Satin Kote Kalsomine is the most hygienic wall coating ever offered. It is especially adapted for private residences, public schools, hospitals, hotels, etc.; can be easily removed from the walls or ceilings with sponge and water; that is, if you wish to recoat your walls with new kalsomine.

KALSOMINE A ROOM FOR 24c

All that is necessary to make it ready for use is to simply mix with boiling water. Can be applied by an inexperienced person, and covers all the way from 35 to 70 per cent more surface than any other so-called kalsomines. One package will cover about 500 square feet on smooth walls, therefore, one package will in most cases cover the walls of an ordinary sized room. It will wear better, last longer and give greater satisfaction than any other preparation used for this purpose. Again it will not rub off.

Directions are plainly printed on every package, and if you follow our instructions and do not get the results that we claim, we will cheerfully refund your money, as our Insurance Policy covers this line also.

9-M-315. Price, any shade, per 4-lb. package. **24c**

Shipping weight, 4 1/2 lbs.

9-M-315. Price, per case of 25 packages, all colors. **\$5.25**

Shipping weight, 115 lbs.

THE HARRIS WHITE COLD WATER PAINT

is a dry powder specially prepared, the addition of cold water is all that is required to make it ready for use. There is nothing better on the market than the Harris White Cold Water Paint for painting or to increase the light of interiors of warehouses, factories, shops, barns, basements, sheds, chicken houses, summer cottages, elevators, etc. It is universally recognized for its fire resisting qualities. It is strictly sanitary and can be used in place of whitewash. It is exceedingly durable and will not rub, scale or crack; can be applied with a whitewash, kalsomine or wide paint brush, or spraying machine.

Lot No. 9-M-312—10-lb. drum. **\$0.60**

SATIN KOTE FRESCO COLORS

Satin Kote Fresco Colors furnished in Brown, Carmen, Green and Red. These fresco colors are mixed with hot water, just as the Satin Kote Kalsomine, excepting after adding the hot water, allow the mixture to stand 25 minutes to come to the proper consistency, provided it is for immediate use. If not for immediate use, simply pour the cold water on the mixture and stir when ready to use. New walls and old walls that have not been previously sized, should first be sized before applying the fresco color. 3 lbs. of the fresco color is usually sufficient for the walls of a medium sized room. Prices as follows:

No. 9-M-317. Red, 1 lb. package. **20c**

No. 9-M-317. Green, 1 lb. package. **16c**

No. 9-M-317. Carmen, 1 lb. pkg. **.27c**

No. 9-M-317. Brown, 1 lb. pkg. **.14c**

PAINTERS' SUPPLIES AT BARGAIN PRICES

For the convenience of our customers in making up a proper selection of paint brushes for barn or house painting, we have made up two outfits consisting of the necessary brushes and material required. These outfits are carefully selected and we advise including one of these outfits with your paint order.

"Popular" Outfit. No. 1.

Brushes included with these outfits are extra good quality and the selection answers all practical requirements for house or barn painting. This outfit consists of one 3 1/2-inch rubber set paint brush. One 3-inch Black Bristle Paint Brush. Two Black China Bristle Sash Brushes. One extra quality Steel Blade Putty Knife, with four pounds of pure putty. One Painter's Time Saver enables one to paint without spoiling decorations; very handy—when washing woodwork, prevents wetting wallpaper.

No. 9-M-1300. Price complete. **\$1.25**

"Complete" Outfit. No. 2.

This assortment includes all brushes required for larger jobs. Each article extra quality and guarantee to give satisfaction.

9-M-1300-B. Outfit Complete consisting of one 3-inch rubber set Black China Bristle Paint Brush.

One 4-inch rubber set extra quality Black China Bristle Paint Brush. One Painters' duster.

Two Black China Bristle Sash Brushes.

One 10 pound can pure putty. One Extra quality steel blade putty knife.

Price of outfit complete. **\$2.98**

WHITEWASH AND PAINTING MACHINE

(Can Also be Used for Spraying Trees, Plants and Shrubbery.)
PAINTING AND WHITEWASHING BY MACHINERY
REDUCES THE COST OF PAINTING AND WHITEWASH-
ING TO A MINIMUM.

WE OFFER OUR CUSTOMERS THE FINEST, CHEAP-
EST AND BEST WHITEWASHING MACHINE EVER
PLACED ON THE MARKET. Nothing will equal it for white
washing barns, fences, poultry houses, cellars, factories, etc.
It is adapted for use both for whitewashing and cold water
paints.

ITS USE. CAN ALSO BE USED FOR ANY KIND OF
SPRAYING. In addition to being used for whitewashing machine,
it makes a first-class sprayer, as it will spray trees 25 feet
high or more by using an extension tube to elevate the spray.

CONSTRUCTION. The body is made of 24-gauge galvanized
steel and is fitted with a high grade ball valve brass cylinder
pump which produces a high pressure. Each machine is fitted
with an agitator which works at every stroke of the pump and
keeps the solution thoroughly agitated. The top is easily removed when you wish
to clean the machine. It is guaranteed to be the most practical machine on the
market and entirely satisfactory. Furnished complete with solution strainer.
Shipped direct from factory Southern Illinois.

EXTENSION LADDERS.

**THE STRONGEST AND
BEST EXTENSION LADDERS
MANUFACTURED.** Sides are
made of clear pine with selected
hickory rungs which are so de-
signed that the sides and rungs
cannot separate. The extension
rollers are of improved design and
very strong. Hooks are made heav-
ier than on the ordinary extension
ladder, making them the best ex-
tension ladders manufactured. No
allowance made for lap.

DRY COLORS.

**9-M-821. WE OFFER
ONLY THE BEST
QUALITY OF COLORS**
which are used for tinting
Kalsomines, in a k
graining colors and other
purposes. We do not
recommend the mixing
of these colors with Lin-
seed Oil for painting purposes, as they are too
coarse to obtain good results without being put
through a paint mill. If a mineral paint is desired
at a low price, purchase our Michaelsen Guaranteed
Mineral Barn and Roof Paint and you will be
ahead in the long run.

Imitation Wood Paneling

IMITATION WOOD FINISH CEIL-TITE WALL BOARD

LIGHT OAK, DARK OAK, MAHOGANY, OREGON FIR
AND CIRCASSIAN WALNUT

This is our famous Cell-Tite Wall Board (described on opposite page), with the finish coat over the heavy fibre board, bearing a striking resemblance to the expensive wood panels and practically the same results are obtained at about one-tenth the expense. Looks like the real wood; no paint, stain or other decoration necessary, but can be varnished and rubbed down to a soft Piano Polish finish. Saves the expense of wallpaper. Many beautiful effects are to be obtained by a combination with wallpaper or some other appropriate decoration for the upper part of the walls. This is an ideal material for remodeling dining rooms, dens and halls, and paneling offices, churches, etc. Furnished 32-inches wide in 8, 9, 10, 11 and 12 foot lengths. Cut in exact size with even edges. Shipped direct from our Ohio factory, securely crated.

OAK MAHOGANY CIRCASSIAN WALNUT FIBRE VENEER A NEW COVERING FOR WALLS, CEILINGS AND FLOORS

BORDER, 18 inch. FIBRE VENEER, 36 inch.

Description — What It Is

Our Fibre Veneer is something entirely new in the way of covering for walls, ceilings and floors. It has been given a thorough trial and by actual test meets all requirements. It is made of wood fibre finished in oil colors to closely imitate various high-priced woods. Our designs are direct copies from the wood itself and it takes an expert to distinguish it from the genuine wood. It makes a **satisfactory covering** and can be washed or scrubbed; water does not injure our signs of wear. Even when used as a floor covering over an old floor, it will not scratch or show. We furnish Fibre Veneer in four different kinds of wood finish, viz.: Quarter Sawn Dark Oak, Quarter Sawn Light Oak, Mahogany and Circassian Walnut. Can be used for covering tops, church pews, show windows and has been used with success on various articles of furniture.

Directions for Using

When the Veneer is used on walls for paneling, wainscoting, etc., it is best to leave it unpainted, but if used for floor covering, a varnish finish is recommended. When laying Wood Fibre Veneer, paste the back with ordinary floor paste; allow it to soak a few minutes. Then give it a second coat, lay the Veneer on and brush out fullness with a whisk broom or a wall brush. If used for floor covering, follow directions as above and allow the Veneer to dry, then coat the face of the Veneer with standard quality of floor varnish to finish. Uneven walls should be properly sized before applying Wood Fibre Veneer in order to make a perfectly smooth job and the more careful you are in this respect, the better results will be obtained.

PRICES

The Fibre Veneer is put up in rolls 36 inches wide and contains enough material to cover 100 square feet of surface. Border is 18 inches wide and is sold only by the yard. We do not fill orders for less than one roll of the Fibre Veneer Body or less than three yards of the border.

OAK MAHOGANY CIRCASSIAN WALNUT FIBRE VENEER

A NEW COVERING FOR WALLS, CEILINGS AND FLOORS

BORDER, 18 inch.

FIBRE VENEER, 36 inch.

Description — What It Is

Our Fibre Veneer is something entirely new in the way of covering for walls, ceilings and floors. It has been given a thorough trial and by actual test meets all requirements. It has therefore passed the stage of an experiment and we offer it as an article that can be guaranteed to serve the purpose for which it is intended. Our Fibre Veneer is put up in rolls like wall paper and is made of wood fibre finished in oil colors to closely imitate various high-priced woods. Our designs are direct copies from the wood itself and it takes an expert to distinguish it from the genuine wood. It makes a sanitary covering and can be washed or scrubbed; water does not injure our Fibre Veneer. Even when used as a floor covering over an old floor, it will not scratch or show signs of wear if kept varnished; it is practically indestructible.

We furnish Fibre Veneer in four different kinds of wood finish, viz.: Quarter Sawn Dark Oak, Quarter Sawn Light Oak, Mahogany and Circassian Walnut. Can be used for covering walls, ceilings, wainscoting, panels, doors and all kinds of new and old woodwork. Also for counter tops, church pews, show windows and has been used with success on various articles of furniture.

Directions for Using

When the Veneer is used on walls for paneling, wainscoting, etc., etc., it is best to leave it unvarnished, but if used for floor covering, a varnish finish is recommended. When laying Wood Fibre Veneer, paste the back with ordinary floor paste; allow it to soak a few minutes. Then give it a second coat, lay the Veneer on and brush out fullness with a whisk broom or a wall brush. If used for floor covering, follow directions as above and allow the Veneer to dry, then coat the face of the Veneer with shellac properly thinned down, or you can use glue instead of shellac. When Veneer is dry, use a standard quality of floor varnish to finish. Uneven walls should be properly sized before applying Wood Fibre Veneer in order to make a perfectly smooth job and the more careful you are in this respect, the better results will be obtained.

PRICES

The Fibre Veneer is put up in rolls 36 inches wide and contains enough material to cover 100 square feet of surface, Border is 18 inches wide and is sold only by the yard. We do not fill orders for less than one roll of the Fibre Veneer Body or less than three yards of the border.

= SUBURBAN = LAWN MOWER

A strictly high grade, durable, high wheel, bronze bearing machine, having 10-inch drive wheels with extended rims and spoked centers. All bearing surfaces are in perfect alignment and makes the Suburban Lawn Mower as free and easy in action as most of the ball bearing machines. Reel shaft is of solid steel. Adjusting screw has jam nut so that when placed remains in a fixed position. All parts are easily accessible and cannot get out of order. Four crucible steel blades, continuous shearing, finely tempered and accurately ground. The raised wheel rim protects the gear from dirt. The handles and rollers are made of selected hardwood. Furnished complete with directions and wrenches.

BALL BEARING EUREKA LAWN MOWER

Our Eureka Ball Bearing Lawn Mower has 9-inch wheel with extended rim, four fine tempered and ground crucible steel blades, continuous shearing. Cutter bar is strong and rigid, mounted with oil tempered steel, ground to smooth, accurately beveled edge. Cones and cups are tempered steel and dust proof. Perfectly adjusted and held rigid by cone pointed screw, the same as in our Premier Lawn Mower. Noiseless ratchet positive in action. Cutter bar knife is adjustable by means of bolts, making a simple and rigid connection. Solid steel tree guard. Handle frame cannot become separated from the discs unless freed from the tongue. Handles and rollers are made of selected hardwood, nicely finished and varnished. Furnished complete with wrenches and directions, and fully guaranteed to please you.

BALL BEARING PREMIER LAWN MOWER

Desirable for use on any lawn. Drive wheels 10 inches in diameter with extended rim, elevating working parts above the dirt. Cones are adjustable to the very finest degree and held rigid by cone pointed screws. The ratchet is noiseless and positive in action. The ball bearings are attached in a manner that makes it possible to throw the reel eccentric with its bearings on the cones. Four crucible steel blades, finely tempered and ground. No bolts or cotter pins are used in the construction of this machine. Tree guard is made of solid steel. Easily adjusted to any height of cut. Roller and handle are made of selected hardwood nicely varnished. Complete with wrenches and directions.

BROODERS AND INCUBATORS

This 120-egg Incubator \$10.25

Construction The walls of our incubators are made of the very best 1 in. panelled lumber. Inside of this there is a layer of half inch wool felt, then a heavy layer of asbestos, then the whole machine is lined with half inch matched lumber. These 4 thicknesses of material make the incubators absolutely draft proof and perfectly even temperatured.

Hot Water System The heating system consists of a hot water tank and heater, made of heavy rolled copper. The hot water jacket extends around the four walls of the incubator, giving a perfect distribution of heat all over the egg chamber. The temperature is kept even by an automatic thermostat, which needs no attention.

Equipment This incubator is shipped complete ready for use, including thermometer, thermostat, egg tester, brass lamps and a complete book of instructions. All machines are finished in handsome imitation mahogany. They are carefully boxed for shipment.

Our Guarantee Our binding guarantee covers every defect in working, splitting or opening at the joints, or any defect in the heating system. If the machines are not exactly what we say they are, or do not do what we claim, we will gladly return you the purchase price. We guarantee these incubators to hatch every fresh and fertile egg, if you follow the complete and simple instructions furnished with each machine.

Marvel Indoor Brooder

This brooder is designed for indoor use, but can be used out doors, when protected from wind and storms. It is equipped with hot air heating system, and is controlled by an improved regulator and thermometer.

The brooder is divided into two compartments. The hover is directly under the heating pipes and is separated from the exercising room by a heavy felt curtain, and so regulated that the chicks can go back and forth. Shipped all complete ready for use.

Lot No. 8-G-8326. 150 chick capacity, size 27 by 31. Price.....**\$6.15**
 Lot No. 8-G-8328. 220 chick capacity, size 27 by 45. Price.....**\$7.70**

OUTDOOR BROODER

These brooders are essentially out-door machines. They are built very strongly and warmly. They stand off the ground and will not get damp. They are equipped with over-head hot air heating system. The top of roof is hinged so that it can be opened, making it easy to get at and clean. Shipped complete, ready for use.

150-220
Chick Capacity

\$5.25

Construction The walls of the special Marvel incubator are made of high grade one inch lumber, lined with a cold proof, insulated material, and this material is again covered on the inside with half inch lumber, making the whole—three thicknesses. It has a double-paned glass door, with air spaces between, which makes it impervious to either heat or cold.

Hot Water Heating System This incubator is equipped with a heavy rolled copper hot water tank, and heater. Heat, moisture and air are controlled by a patented automatic regulator.

Equipment This incubator is furnished complete, ready for use, including egg tester, egg trays, lamp, thermometer and with complete book of instructions. This special Marvel incubator capacity, price.....**\$5.25**

Little Giant Incubator

This little giant incubator is all metal, absolutely the strongest construction possible, and at the same time embodying all the principles of even temperature necessary to a good incubator. It is shaped round and has no corners in which stagnant air might accumulate. The top is made of heavy plate glass. It has a double water thermostat hot water system located under the top, and is a very simple affair. This incubator is designed as simply as possible and it is one of the surest and most satisfactory incubators ever manufactured. Lot No. 8-DW-299. 60 egg size, weight 40 lbs. Price**\$4.80**

Little Giant Brooder

The Little Giant 60 egg metal brooder is round and made entirely of metal, except the fannel hover. It is rust proof and fire proof. There is a hot water heating system embodied in it, and it is an excellent companion to the Little Giant incubator, and is designed with the same practical and simple construction.

Little Giant 60 Chick Metal Brooder

Star Fireless Brooder

These brooders are intended for use in buildings, but can also be used out doors, if in protected positions. No lamps are necessary. The hover in this brooder is made warm and cozy, with thick strips of wool felt. The felt is cut in strips so that when the top is down the chicks will nestle themselves in this warm felt as they would under the hen.

This brooder is absolutely rat proof, and moisture proof. It has warm thick walls, and is provided with a perfect ventilating system when closed. The advantages of this brooder are that it is clean and does not get smoky or oily, as the lamp burning type.

Lot No. 8-G-8315. The Starr Fireless brooder, 60 chick capacity. Price**\$2.10**
 Lot No. 8-G-8317. Star Fireless Brooder, 120 chick capacity. Price**\$4.10**

BITTER LICK
MEDICATED
Salt Brick

19c
BUY
ONE
NOW

"Bitter Lick" is a pure, highly concentrated medicinal salt brick of marvelous strength. It is an absolute necessity that all kinds of domestic animals should get plenty of salt in order to assimilate or digest their food properly. All animals like this style of salt, it is sanitary; place it in a frame holder, and this keeps the salt free from the dirt and slime usually in the bottom of a feed trough. These bricks weigh 2 lbs. ea.

Magic Egg Producer

2½ lb. Pkg. 24c

Crescent Magic Egg Producer

This egg producer has proven itself to be the most profitable assistant to the poultry-man. It consists of 50% dried blood granulated, which is a highly concentrated form of meat food, each pound being equal to 46 pounds of grain. Therefore a small quantity of this Magic Egg Producer in a regular feed of grain acts like magic, produces the quickest and best of results. It will positively increase your egg count to double its normal count. We earnestly recommend that you use this preparation in preference to all others.

Microzone
Pint Tin, 35c

Microzone contains the highest quality, absolutely pure materials. It has proven itself more effective on the worst cases of Roup, Cholera, Indigestion and Bowel Complaint than any other remedy on the market. It is also used for chicken pox, sores, cuts and sore eyes. We strongly recommend its use occasionally, say once or twice a week in the drinking water, which will prove a preventive of disease. This is the most wonderful and most valuable remedy for the poultry man to use. You should not be without it. Our price is just 50 per cent of regular retail price for this particular remedy.

RUBBER ROOFING

38¢ Per Roll

108 Sq. Ft.

OUR AJAX RUBBER ROOFING is a brand new ready roofing made on a good quality of felt saturated with pure asphalt. It is equal in manufacture to many of the best grades on the market—in fact was made to sell at much higher prices than we are offering under this grade name. AJAX ROOFING is put up in full rolls—2 to 3 pieces to a roll, containing 108 square feet. The fact that the material is Mill Ends does not injure the quality of the stock and explains our very low prices on same. We furnish this material complete with all necessary nails and cement for laying and offer you same in the following weights:

No. 13B	100.	AJAX ½-PLY, used mostly for lining purposes.	Price, per roll, complete with nails and cement.....	38c
No. 13B	101.	AJAX 1-PLY, complete with nails and cement.	Price, per roll.....	76c
No. 13B	102.	AJAX 2-PLY, complete with nails and cement.	Price, per roll.....	86c
No. 13B	103.	AJAX 3-PLY, complete with nails and cement.	Price, per roll.....	96c

MISCELLANEOUS STOCK—3 PLY AND HEAVIER

From time to time we have accumulated in our Warehouse miscellaneous lots of roofing in quantities too small to list in separate items. We have several hundred rolls of each kind, but owing to the enormous demand for this class of this material, we cannot list each item separately. At this time we have such an accumulation running in the following stock: 3-PLY ROOFING—Rubber surfaced on both sides; sanded one side and plain one side; sanded both sides; Rock Faced; Brown Pebble; Mica Finish. This is all 3-PLY OR HEAVIER and the price on same less than the usual price on 1-ply material. Full Rolls, 2 to 4 pieces to a roll of 108 sq. ft. Inasmuch as we have only a limited quantity, we would advise that you give us a first and second selection on your order that we may fill same promptly and in accordance with your specifications.

26^{in.} Hog Fence 16c Per Rod

Heavy weight, smooth spring wire galvanized Hog Fencing, absolutely the strongest all around Hog Fencing on the market. Do not confuse it with any of the cheap priced fencing made of light wire.

THIS fencing weighs practically 6 pounds to the rod which is easily from 10 to 20 per cent heavier than a similar fence, and furthermore, our price that we are offering this fencing is lower than that asked for the very cheapest kind of fence. Compare our weights with others and you will readily see that you are getting a bargain.

As a matter of fact, if you were to buy the wire in the fence alone, it would cost you more than it would for our fence (besides the cost of manufacture), per rod. The stays on this fence are spaced 6 and 12 inches apart, which makes a first class, all around Hog and Field Fence. This is a Fence built for continuous and lasting service, and is the kind of a fence every up-to-date owner ought to buy. Shipped from factory Central Indiana and Chicago.

This fence is made of 7 line wires, stays spaced 12 inches apart. Top and bottom wires are No. 9, and intermediate wires and stay wires are all No. 12. Put up in 20, 40 and 60-rod rolls.

Lot No. 2-G-1005. Stays spaced 12 inches apart, approximate weight, per 100 rods, 680 pounds. Per rod..... **16c**

Lot No. 2-G-1009. Stays spaced 6 inches apart, approximate weight per 100 rods, 850 pounds. Per rod..... **22c**

We can also furnish this same style of Fencing in the following sizes, constructed with the same size wire as above described:

EXTRA HEAVY WOVEN WIRE FENCING

At 30 to 50 Per Cent Less Than the Regular Price

ALL users of fencing generally concede that a heavy fence is a good investment and by a fortunate purchase we were able to secure a large quantity of extra heavy woven wire fencing which we are going to offer at from 30 to 50 per cent less than the regular price while it lasts. This list includes every size ordinarily used on the farm or field. The users of fencing readily appreciate the enormous strength that the increased weight gives to the fence. We call your particular attention to the knot in this fencing warranted not to slip, and do not want you to confuse it with any of the cheaper fences on the market. We know that this fencing will go rapidly and same is offered subject to quantity on hand. All of the fencing listed below is made with No. 9 top and bottom wires, and the stay and line wires, No. 11, all are drawn from extra quality open hearth steel, heavily galvanized. The high carbon hard steel margin and line wires have tension curves which keep the fence tight at all times. Shipped from factory Central Indiana and Chicago.

Harris Woven Wire LAWN FENCING

5½c
PER
FOOT

EXTRA HEAVY GALVANIZED

BY a fortunate purchase we were able to secure twenty car-loads of this fencing at our own price, and to move it rapidly, we are going to sell it at less than manufacturing cost. If you want to beautify your home, now is the time to buy it, as this offer is limited. If you are not quite ready to put up your fencing until later on, send us a small deposit to protect yourself, so that you may get the benefit of these low prices, and we will hold same until you advise us to ship.

NEVER IN THE HISTORY OF OUR SPECIAL OFFERS, HAVE WE BEEN IN POSITION TO PLACE SUCH REMARKABLY LOW PRICED FENCING SNAPS TO OUR CUSTOMERS

Harris Woven Wire Fencing is made of the best grade of galvanized wire. The design is plain and substantial as shown in the cut above. This is a fence that will be suitable in any surroundings, harmonizing well on any lawn. Can be used with either steel or wood posts.

Specifications: Uprights are made of No. 9 heavy galvanized wire, crimped the entire length. Cabled line wires are of heavy galvanized wire, with stays between the uprights, 2½ inches. Cables are spaced 6 inches apart, except the top wire which is spaced 2½ inches. We can furnish same to you in the following sizes.

No. 2-N-428. 24 inches high. Per lin. ft. 5½c	No. 2-N-430. 36 inches high. Per lin. ft. 6½c
No. 2-N-429. 30 inches high. Per lin. ft. 6c	No. 2-N-431. 42 inches high. Per lin. ft. 7c
No. 2-N-432. 48 inches high. Per lin. ft. 7½c	

The above fencing can be furnished in any continuous length up to 300 feet. We can furnish gates for the above, same as listed under style A-100.

HARRIS ORNAMENTAL LAWN FENCING

This style, A-200, differs from our 429 in that we weave in an additional picket at the bottom, adding to the beauty of the design and also giving additional strength to the fence. It will stand use and abuse and the wear of time to the limit of reasonable expectation. The space at the bottom closes to 1½ inches.

SPECIFICATIONS: Uprights, No. 9 galvanized wire, crimped the entire length; cables, No. 12½, heavily galvanized, with space between the uprights at the bottom of 1½ ins.; at the top, 2½ ins. The cables are spaced 6 ins. apart, except the top space of 2½ ins.

\$1.90 and Up—Ornamental Walk Gates—\$1.90 and Up

These gates are the most substantial gates ever made. The frame is made of 1½-in., full weight, stiff, high-carbon steel tubing, nicely painted. The gate is filled with our "Harris" Ornamental Lawn Fence fabric. All gates furnished complete with heavy malleable iron hinges for wood and a strong automatic latch of improved pattern. These gates can be used for any purpose where a walk gate is required. In ordering gates, be particular to state kind of fittings desired—whether for wooden or steel posts. All gates are made to fit openings. By openings we mean total distance between posts. In ordering ornamental gates, specify dimensions in the following rotation: height of gate, width of opening. Note the following prices:

Style A-100

Single Gates—Up to and including 48 inches high			Double Gates—Up to and including 48 inches high		
2-N-405. 3 ft. opening.	\$1.90	2-N-411. 6 ft. opening.	\$3.00	2-N-416. 8 ft. opening.	\$4.50
2-N-406. 3½ ft. opening.	2.10	2-N-412. 7 ft. opening.	3.40	2-N-417. 10 ft. opening.	5.20
2-N-407. 4 ft. opening.	2.25	2-N-413. 8 ft. opening.	4.00	2-N-418. 12 ft. opening.	6.00
2-N-408. 4½ ft. opening.	2.40	2-N-414. 10 ft. opening.	4.40		
2-N-409. 5 ft. opening.	2.60	2-N-415. 12 ft. opening.	4.80		
2-N-410. 5½ ft. opening.	2.80				

Style A-200

Above ornamental lawn fence weighs from 2 to 5 lbs. per lineal foot, depending upon height and style of fence. Gates size 3x3 ft. weighs about 20 lbs. each. Gates with 10 to 12 foot openings weigh from 60 to 100 lbs., depending upon height and style.

HARRIS BROTHERS CO., 35TH AND IRON STREETS, CHICAGO

Rumely Cream Separators

This is the Best Cream Separator Manufactured

Rumely Cream Separator

Easy to Clean

We have about 4,000 of these separators for sale, and when this stock is gone, you will never again be able to purchase at such prices as are shown in this catalog.

It is the best Cream Separator manufactured—contains more genuine essential features than any other kind. These Separators were made by one of the leading and most reliable Cream Separator Factories in the country. They are being manufactured every day in the year, and are recommended as having more merits than any other separator. Among hundreds of other reasons, we give you below, seven special points of excellence:

\$29⁵⁰

**BUYS 500 LB.
CREAM
SEPARATOR**

First: Here is a durable machine. It will last for twenty years or more. Runs quietly and smoothly. Will do its work as well at the end of twenty years as it did when it was new.

Second: It is strongly but simply built—no complicated parts.

Third: No delicate parts to wear out. It has interchangeable parts. Any part can be easily replaced.

Fourth: The cream can be regulated to any thickness desired.

Fifth: No loss of butter fat.

Sixth: It skims closely, giving thick or thin cream as desired.

Seventh: It is a convenient machine, with a supply can at the proper height so that it can be easily reached and with a handle at just the actual position for turning.

The Rumely Separator Bowl

The bowl is the most important part of the separator. It is into the bowl that whole milk is entered and from which it emerges separated as skim milk and cream. No matter how perfect the gearing may be, or how accurately the bearings and shafts are machined, if the bowl is not designed according to sound scientific principles, it will not skim properly under all conditions. Further, it must be remembered that the bowl and its parts must be washed each time the machine is used, and the construction must be simple. A complicated bowl is a nuisance.

We have stated above that it is the aim of cream separator manufacturers to get a large capacity from a moderate size bowl. This has been attempted in several ways and is the reason for the different devices inside the bowl, some more complicated and harder to clean than others; some more efficient than others. However, it has become generally recognized that the "disc type," as it is called, is the most efficient, sanitary and durable. What is meant by the disc type will be explained in the next paragraph.

The Rumely bowl is of the "disc type," but that is not all, for machines of the disc type vary as to the way in which the milk is conducted to the discs and distributed among them and conducted to the final outlets for the skim milk and cream, and it is upon these details that the efficiency and desirability of any separator depend.

Our System of Lubrication

It is needless to say that in a machine where parts operate at such a high speed as in a cream separator, the lubrication of bearings is a most important point.

In the Rumely Separator, a sight feed oiler on the frame of the machine feeds oil through a tube to the neck bearing and spindle. You can always see just how much oil you are feeding, and you can always be sure that new, clean oil is being fed to the bearing surfaces, carrying away all dust and dirt that causes wear. You don't use the same oil over and over and thereby run chances of doing more harm than good when the oil gets dirty and full of substances that wear down metal.

Besides this oil cup, there are only five other oil holes, which require a few drops of oil occasionally to lubricate the hearings properly.

THE RUMELY POWER ATTACHMENT

Any of the sizes of the Rumely Cream Separator can be equipped with power attachment for an additional price of \$9.00

REPAIR PARTS CAN ALWAYS BE OBTAINED

HARRIS BROTHERS CO., 35TH AND IRON STREETS, CHICAGO

High Grade **BATH ROOM OUTFIT** COMPLETE \$27⁵⁰

THIS is one of our biggest leaders in bathroom outfits, and a very popular one. We have just 240 of these for this special sale and when they are gone no more can be had at this price. The outfit consists of a 5-ft. tub fitted with connected waste and overflow and compression bathcock. No supply pipes are furnished with the tub. It is strictly "A" grade with the exception that it has a few chips on the rim above the water mark, which does not in any way affect the usage of the tub. Get your order in before it is too late. The lavatory is a one-piece white enameled high-grade one, size of slab 17x19 in. with 6 in. back and bowl 10x14 in., fitted with nickel plated compression faucets indexed "Hot" and "Cold" and rubber stopper. Closet outfit is indeed a beauty. It consists of a steel white enameled low down tank lined with a mineral composition which makes it proof against alkali, lime and other ingredients that will ordinarily wear on other linings. It is fitted with latest improved flush valve. We can furnish either the Golden Oak or Mahogany finish seat. The stool is a syphon flush down of the latest pattern. Lot No. 5B 3250, while they last.

\$27⁵⁰

HIGH GRADE PORCELAIN BATH TUB

\$14⁸⁵

**COMPLETE
WITH ALL
FITTINGS
ABOVE FLOOR**

This particular lot of high-grade tubs consists of three sizes only—4½ ft., 5 ft. and 5½ ft. Prices are good only subject to quantity on hand. These

tubs are fitted with high-grade compression bathcocks, connected waste and overflow of latest pattern.

Lot No. 5B 2030. 4½-ft. tub, complete.....**\$14.85**
Lot No. 5B 2050. 5 -ft. tub, complete.....**\$15.85**
Lot No. 5B 2070. 5½-ft. tub, complete.....**\$16.85**

We also have a special lot of 5-ft. tubs that have three holes in top and cannot be used with a regular bathcock, but you can use the regular sink faucets on these. We offer .75 of these subject to quantity on hand, fitted with connected waste and overflow and two faucets, for **\$10.00** each.

Order by Lot No. 5B 3251. Each as described.....**\$10.00**

Granitine Laundry Tubs

\$5⁰⁰

A special lot of these tubs just purchased by us which are all high grade. All that is the matter with them is that they are what are termed as seconds, not being a first quality tub. We guarantee them to be water-proof and will stand as much wear as any tub on the market. They are fitted complete with four faucets and two legs as shown in illustration; 45 in. long, 24 in. high and 16 in. deep; are finished in two-part only. This certainly is a remarkable bargain and we suggest that you place your order immediately before they are all gone. Lot No. 5B 3253. Complete as shown **\$5.00**

Steel Closet Outfit

**PORCELAIN
ENAMELED**

\$9⁹⁸

Order this at once—the best on the market for anywhere's near the amount. If you were to purchase this regularly it would cost you

\$13.50. It consists of a high grade porcelain enameled steel tank fitted complete with syphon washdown, and either Golden Oak or Mahogany finished seat. The bowl is fitted for 2-in. spud.

Lot No. 5B 59520. **\$9.98**
Price

Portable Indoor Toilet

**Odorless,
Sanitary
Convenient
Water Flush**

\$9⁵⁰

An ideal toilet for camping, country homes, hospitals or sick rooms that are not equipped with running water. They are also very good for the same purposes when you have running water. The Portable Indoor Toilet gives you every convenience of a modern, up-to-date toilet outfit, made up of golden oak of the highest grade and finish, which can be used for a seat when not in use. It has the appearance of a handsome piece of furniture and does not reveal its purpose. It is furnished with rust-proof galvanized water tank and automatic flush, flushing after each use. The chamber or commode will hold about 20 deposits.

Lot No. 5B 290. Each.....**\$9.50**

One Piece Lavatory

**Enameled
Iron**

\$7⁴⁰

This outfit is furnished complete as shown and consists of a one-piece porcelain roll rim lavatory, complete with two compression faucets, nickel plated, indexed hot and cold, also nickel plated trap fitted with lead pipe connections. It is a very popular lavatory and is guaranteed to be strictly "A" grade. The size of slab is 18x21 in., with 8-in. back; bowl is 10x14 in., and is also covered with a heavy coating of white enamel baked on to the highest degree.

Lot No. 5B 3212. Lavatory as shown with lead pipe connections.....**\$7.40**
Each
Lot No. 5B 3230. Same as above with iron pipe connections. Each.....**\$8.50**

HARRIS BROTHERS CO., 35TH AND IRON STREETS, CHICAGO

Have you received Your Copy of our new big Catalog No. 175?

You need this price wrecker as your buying guide to economy

Nearly one thousand profusely illustrated pages of clean, new, desirable merchandise covering every need for farm, factory, home and personal use at prices that simply wipe out all competition. Every article offered in this great price wrecking catalog is absolutely brand new and first class, equal in value to any merchandise produced by any concern anywhere.

Here are samples selected from our many million dollar merchandise stock, representing values superior to any we have previously offered. This is explained by our different and original methods. We buy complete factories and entire warehouse stocks—in many instances our prices do not represent even the original cost of manufacture. Send for your copy of this bargain buying guide today. A letter or postal brings it to your door. Let this greatest of all bargain books start you saving on everything you need. Write today.

We want you to ask for these books --any or all of them--now--today

In addition to our great price wrecking catalog, we issue a number of special books and circulars, each treating some special line of material or merchandise. You may be about to build your home, or you may be thinking of doing some repair work, or installing a heating plant, or it may be that you are figuring on furnishing your home. No matter what you are figuring upon buying, you should first get our special books and see how much money we can save you.

Look over the books below. Read the brief outline of their contents. You will notice we are offering a whole library of money saving guides and they are free to you for the asking. Just drop us a postal card stating that particular class of merchandise you are interested in and we will send, at once, absolutely free, the book or books you require to conveniently make your purchase. Your request for one or all of these books places you under no obligation whatever to buy a penny's worth of goods from us now, or at any other time.

Your selections from this book are made from the world's greatest building material department. About two hundred pages of bargain in lumber, doors, windows, millwork, paint, roofing, plumbing, hardware, in fact, everything in structural materials for the erection of any building. Competition of every sort is easily outdistanced by the low price quotations which mean a substantial saving in every instance.

We point to our latest \$10,000.00 plan book with pride for it is without exception the most beautiful and complete book of its kind published today—up to the minute in every detail. Accurately illustrates about one hundred modern Harris homes and other buildings. Here is the culmination of twenty-three years' designing, planning and close study of American home building with every detail and step carefully explained.

A complete and comprehensive book on ready roofing, metal roofing, sidings, ceilings, etc., the best of its kind ever published. Everything explained by diagram so clearly that it cannot possibly be misunderstood. Every angle item in these lines fully covered by lowest price quotations which mean in every instance a saving of from one-third to one-half. Get this book without fail. Your copy is waiting.

Here is a book that gives you a complete education in plumbing and heating, showing just what is necessary to successfully equip any building of any style or size—and it tells you how to do it yourself, if you please, in the most economical manner. Gives full instructions for installation so that you can dispense with the services of high priced plumbers and steamfitters. You save at least 50 per cent on any selection made.

The most interesting display of bargains in guns, fishing tackle, cameras, baseball supplies, etc., ever shown; in fact, everything in sporting goods or recreation lines is embodied at prices that save many dollars of your money. Illustrations and descriptions are true to life. A splendid guide for every hunter and athlete. Economy is plainly written on every page. Get your copy and start saving now—today.

This book is complete with bargains in barb wire, hog, field, cattle and poultry fencing, nails, staples, fence posts and general supplies in this line. Contains a complete list of all material continuously secured in our big purchases. A time and money saving assistant to the man who owns property. The greatest opportunities ever offered to save a comfortable amount on your purchases will be found here.

Our latest issue of this book embodies all of the gasoline engines, machine and hand tools, factory and workshop equipment and material secured in many recent purchases of complete plants. Never in our entire history have we been in a better position to prove the advantages to you of our different purchasing methods. Our tremendous stocks have never offered such wonderful values before. Many miscellaneous snaps are offered.

This splendid book has probably the greatest array of bargain in home furnishings ever bound between two covers. Here you will find parlor suites, dining, bedroom, kitchen and office furniture, ranges and stoves at prices that save many dollars of your money. A special bargain section is devoted to crockery, glassware and small kitchen utensils. Our different purchasing methods enable us to effect big savings.
